Water Conservation Credit Program Guidelines for High Efficiency Washing Machine

Program Guidelines:

- Participant must reside at or own the property where the qualifying item is to be installed and their City of Garland utility account must be in good standing. This program is for residents only; commercial requests will not be eligible.
- The program limits a once in a lifetime washing machine conservation credit per family residing in Garland at any address. Credit for the purchase and installation of a new high efficiency washing machine is based on a three tier compensation table relating to the level of water efficiency. In order to receive the highest credits available, look for your new washer's "Water Factor". You can usually find this information in your owner's manual, on the manufacturer's website or on the Energy Star website. If you can't find it, we will look it up for you. Credit tiers based on water factor are as follows: 4.0 or below = \$125, 4.1 - 4.5 = \$100, 4.6 - 6.0 = \$75.00, all washers with water factors over 6.0 will receive a \$50 credit.
- Applications must be received within 120 days of purchase of eligible water conserving item. Credit applications will be processed in the order they are received on a first-come first-serve basis. All credits are subject to the availability of funds. The funding for this program is limited and granted on an annual basis. Please check our website at www.GarlandWater.com under the "Conservation" tab to ensure funds are available. **Funding for each fiscal year will run between October 1 through September 30.**
- The City of Garland does not require a plumbing permit to install a new washing machine. No participant shall receive more than a \$500 credit from the City of Garland's Water Conservation Program(s) for any combination of eligible items.
- Old washing machines that are replaced MUST be disposed of in a proper manner.

Water Conservation Credit Program Application Instructions:

- Select, purchase and install a high efficiency washing machine. Look for the Water Factor to determine your conservation credit tier. If you cannot find it, we'll find it for you.
- Mail in the water conservation credit application along with a **copy** of the sales receipt or invoice and a **copy** of the front cover of the Owners' Manual.
- Originals of all copies must be retained and available for review should an onsite verification occur.

Mail Application to: City of Garland
Water Conservation Credit Program
PO Box 469002
Garland, Texas 75046-9002

Attn: Garland Water Utilities
